LYNCHBURG, VA., August 9.-(Special.)-In response to an inquiry from the correspondent of the Dispatch as to the plans, purposes, and prospects of the socalled "Otey Silver Conference," representative from the Sixth Congressional District to-day said:

"Well, I have called no conference hence have invited no one to any such conference. Here is a circular which I sent out some days ago. I asked for the signatures of those who concurred in the views expressed in the circular."

Here Major Otey handed your correspendent the following paper, which has already been printed in the Dispatch:

"The undersigned, deprecating the combination of the money power of this country and England, with the Republican party, to enforce the single gold standard, and to further contract the currency; believing that we voice the senti-ments of the Democratic party of the great West and South, hereby declare:

"We favor a meeting of all who concar in these views at some time and place to be made known by publication."
Continuing, Major Otey said: "I desired to obtain the consensus of opinion on the momentous questions embodied in the crecular, and I think I have succeeded. That's all."

Meeting of Lee Camp Veterans.

The regular meeting of Lee Camp was held last night, Colonel James T. Gray, the commander, being in the chair. A letter was received from R. B. Fish, Rolfe, la., asking for the address of some prominent citizen who lives near Drewry's bluff, who might assist him in finding two laddes who were cired for by him during the fall of 1864; their father having been in the Confederate army. The adjustant was directed to furnish him the address of several citizens of that locality. A letter was read from the Sons of Confederate Veterans in regard to the progress of their organization, and the committee from the camp will do all in their power to ad these young men in their noble work.

The thanks of the camp were voted to Hon. George D. Wise, for a donation of books, and also to Mr. Decatur Axtell, vice-president of the Chesapeake and Ohlo railway, and Major Charles Selden, of the street-railway company, for kindness and courtesy extended by them to the old soldiers of the home on their recent trip to the Gordonsville reunion.

The Insurance Situation.

The Insurance Situation.

The insurance war is still on, and there does not seem to be much prospect of its being settled in the near future. The cutting of rates by companies in the Southeastern Tariff Association would seem to indicate that the association is working to crush out all opposition and annihilate the business of the three local agencies and two local companies refusing to unite with and help maintain the compact, it is said that this has been the plan followed by the association in other southern cities where opposition was manifested. And when insurers have accepted the tempting balt of unreasonably low rates for the time being, and generally cancelled policies in companies

opposed to the association's methods, of course, it has triumphed, and reasserted its dominion. The opposition agencies re-port that up to this time but few of their policies have been cancelled, and they think the people will stand by them, and continue to pay reasonable rates, rather than help the tariff association to become master of the situation again. It has been stated that the tariff associa-tion is prepared to lose \$200,000 here, if necessary, to win the fight.

A permit was received at the office of

the Collector of Internal Revenue in this city from headquarters yesterday morning granting permission to Mr. John R. Sedgwick to promote and operate a bonded warehouse for the reception and storage of wines and spirituous liquors.

Mr. Sedgwick, who has been identified with this class of business off and on for a number of years, has erected a large warehouse on Eighth street, by the dock, capable of storing 5,000 barrels. Mr. Sedgwick will have to give bond to the amount of \$100,000 to the United States Government, and leaves for New York this morning to complete all his arrangements for opening the warehouse at an early date. ATLANTA BULL-FIGHT

It is Not to Be a Part of the Exposition Proper.

PRESIDENT COLLIER EXPLAINS,

Not a Drop of Blood Is to Be Shed-The Performance Is to Be a Legitimate Historical Representa-

ATLANTA, GA., August 9 .- The campaign of talk which the vice-president of the American Humane Society has inaugurated against the bull-fights which are to be a feature of the exposition this fall has called forth a statement from President Collier, of the Exposition pany. This morning he gave out the

"There seems to be a great deal of unand I think I can relieve a great many

good people by simply stating the facts, "In the first place, the bull-fight is not an exhibit, but a part of the Midway, It is not the suggestion of the exposition management, but originated with the oncessionaires of the Mexican village. The performance will take place within an inclosure, which no one can enter without the payment of an admission fee, 6 and it will only be seen by those who

care to pay for the privilege.
"I have recently received a number of letters from persons exercised over this subject, and in almost every instance the correspondent labored under the impression that bulls were to be killed and horses sion that bulls were to be killed and horses disemboweled. I wish to assure the public that nothing of this kind will be tolerated, and not a drop of blood will be shed. Among other letters recently received is one from Mr. King, president of the Georgia Humane Society, who had previously written protesting sgainst what he conceived to be an outrage.

what he conceived to be an outrage.

"I wrote to him stating the facts as here given, and received from him a second letter, in which he said he was satisfied that under this arrangement cruelty to animals would be prevented, although thought it an unwise policy to allow even a representation of a bull-fight. To this objection, the answer that it is a historic performance has been already given. "I wish to say further that such a representation of a bull-fight is not an experiment. The thing has been done before, and is now being done very success." fore, and is now being done very success fore, and is now being fully in Mexico. It was done in Paris during the last exposition there, and gentiemen in this and other cities are witnesses of the fact that the performance was harmless, devoid of cruelty, and as legitimately a historic representation of a tragedy as any performance on the American stage."

To Play Ball in England.
